

Liberty Single Offset Umbrella

Liberty

The Liberty Single outdoor offset umbrella is an ideal piece for anyone that wants a long lasting quality shade. The posts and side arms are made of 100% powder coated steel with spokes constructed out of Industrial Grade aluminum designed to withstand even the most rugged conditions. The structures are made up of all replaceable parts providing durability you can't get anywhere else. Powder coatings are available White, Brown, Black, Grey or as stated by you in a special order. This outdoor offset umbrella is crafted specially by hand in Europe.

Sizes available: 6.5'x10', 8'x8', 8' Octagonal, 10' Octagonal, 10'x10', 10'x13', 11.5'x11.5', 11.5' Octagonal, 13' Octagonal, 13'x13'

Custom shapes and sizes can be request.

Liberty LX*

Sizes available: 10'x13', 11.5'x11.5', 11.5' Octagonal, 13'x13', 13' Octagonal, 15' Octagonal, 16' Octagonal

* The Liberty LX boasts a more robust structure allowing the support necessary for larger canopies. Also the ideal solution to match our Multi Canopy umbrellas (Freedom Double and American Quad) when used in conjunction with one another.

Round Post

Simple • Elegant • Versatile

The Clean lines and revolving design make it versatile and suitable for all environments. It is mostly requested for terraces and platforms, where the traditional concrete base would limit the useful ground space. The mirror polished stainless steel version is suitable for installation on luxury yachts and modern buildings.

Wall Mounted Umbrella

Dick's Last Resort in Panama City

2 Single Offset Umbrellas with the multi-vent canopy provide a nice area to have a great time while eating, drinking or just mingling.
